

## Phase 2

At campaign start date/time – system needs to create a job log. Only auto create a job log only when campaign starts. And then once campaign starts – then no changes is allowed to campaign.

### System Functions

The system should send emails....

- Use client defined SMTP details
- To Send count of emails defined in “Quantity”
- Every defined “Frequency” in hours
- For every email to be sent out to a list record...
- If AI Mode is = Yes
  - Connect to Open AI API
  - Rewrite Subject
  - Rewrite Content
- Send out email to list.
- Update job log
